

DEANDDAVIDSON

*Demi-fine jewelry inspired by world travels*

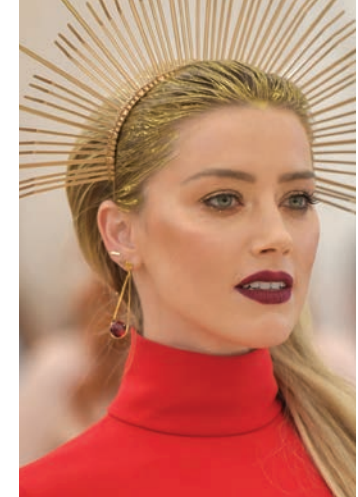

## INTRODUCTION

---

After an inspirational trip to South Africa, Dean Davidson discovered his love for designing jewelry. Hoping to turn this passion into a reality, Davidson launched his eponymous line in 2007.

Since its inception, the Dean Davidson brand has risen to international prominence, counting Oprah, Jennifer Lopez, Sophie Gregoire-Trudeau, and the Duchess of Sussex, Meghan Markle, as fans. Further solidifying his role as an internationally celebrated jewelry designer, Davidson was honoured as the Canadian Arts & Fashion Award's 2019 Accessories Designer of the Year.

As a truly international brand, Davidson continues to draw inspiration for his designs from his extensive world travels.

## MAKERS

---

Each Dean Davidson collection is purposefully designed in Toronto, Canada and meticulously crafted in a traditional, family-owned workshop of multi-generational master gem cutters in Jaipur, India.

## MATERIALS

---

Each piece of Dean Davidson jewelry is cast out of high-quality brass, finished with 22 karat acid gold or rhodium, and set with custom-cut, semi-precious gemstones.

The collection's signature brushed finish - a technique learned by the designer during time spent in Paris - gives a timeless, luxurious, and unique quality to each design.

## THE SIGNATURE COLLECTION

---

Serving as the foundation of Dean Davidson's core offerings, the Signature Collection evokes the sense of understated luxury that embodies the brand's aesthetic.

THE  
SIGNATURE PAVE  
COLLECTION

---

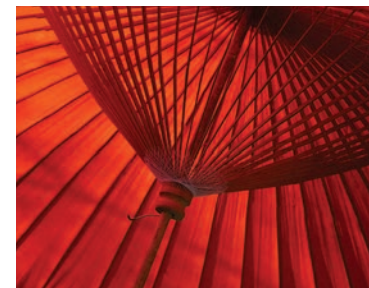

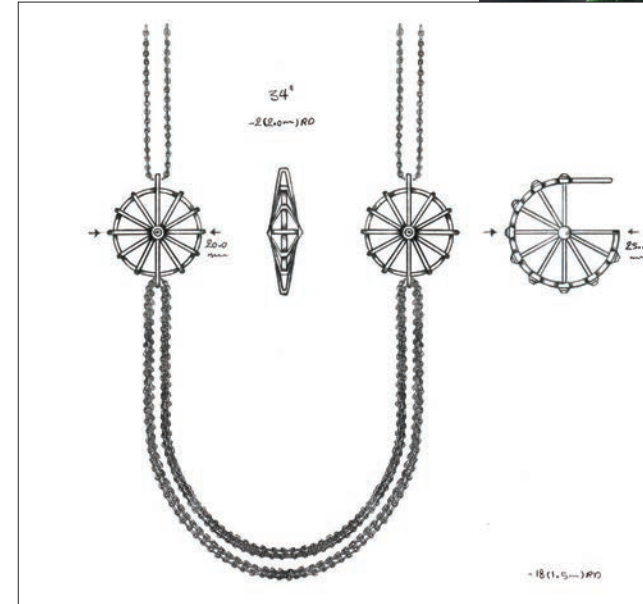

Inspired by the best-selling Signature Collection, the Signature Pave Collection elegantly reimagines the most classic Dean Davidson designs with the addition of pave-set white topaz gemstones.

## THE JAPAN COLLECTIONS

## ORIGAMI

---

Inspired by the art of traditional Japanese paper folding, the sculptural angles of the Origami Collection are juxtaposed by custom-cut round gemstones and luminous freshwater pearls.

## BAMBOO

---

Inspired by the Arashiyama Bamboo Grove of Kyoto, the Bamboo Collection draws inspiration from the organic, curved lines and elegant minimalism of the bamboo tree.

## MAIKO

---

Inspired by the intricate Kyo Wagasa umbrellas carried by Maiko, the Maiko Collection is a celebration of traditional Japanese beauty and femininity.

## SAKURA

---

Symbolizing impermanence and renewal, the Sakura Collection is inspired by the fleeting beauty of Japanese cherry blossoms in the springtime.
